**SUE GLASSCOCK FOUNDED** **The Ranch** (Malibu, CA) in September 2010 with her husband, Alex. The couple's passion for healthy and balanced living through outdoor activities and appreciation for nature were the guiding principles in creating this fitness and wellness retreat. Glasscock's vision for The Ranch was to create a luxurious environment where guests can find relaxation and serenity after an intensive day of physical activity. As cofounder and chief creative director, Glasscock oversees all aspects of the guest experience outside of the program itself, including the interior design of all rooms and common areas of The Ranch, curation of amenities, and the landscape design throughout the property.
